RUST NO MORE - DIRECT TO RUST PRIMER / SEALER

Will work on clean steel or rusty steel, galvanized metal, zinc, aluminum, tin or previously painted surfaces. Is a universal paint primer, and a "rust converting paint primer". Can overcoat with all different types of paint - no restrictions. Needs no sanding or deglossing. Is a self etching primer that "bites" into a painted surface. Is a unique 1-step process. #W5905

AQUASHIELD™ ACRYLIC WATERBORNE INDUSTRIAL ENAMELS - #3966 SERIES

A PREMIUM one-part acrylic waterbase industrial enamel that is designed for all applications of steel. Formulated especially as a heavy duty protective and decorative coating to withstand severe exposures. A water reducible, rust inhibitive paint for new or previously painted structural steel, rolled steel, and aluminum. Special processed chemical ingredients protect metal against rust, corrosion, chipping and fading. The result is a finish that provides outstanding appearance over the exposure cycle.
